

New day, new exercises 😊

With grammar, I will use Slovenian, so everyone can understand.

Najprej nekaj malega o rabi primernikov (comparatives).

Kadar primerjamo dve stvari, pridevniku dodamo črki "ER" in uporabimo izraz "THAN" (ki pomeni "kot").

Na primer

Miha je višji kot Aleš. (ali Miha je višji od Aleša)

Miha is taller THAN Aleš.

Besede "than" ne smemo mešati z izrazom "then", ki pomeni "potem". 😊

Pri daljših pridevnikih pri primerjavi uporabimo izraz "MORE" in besedo "than".

Na primer:

Snakes are MORE dangerous THAN rabbits.

Now that you have read this, write three sentences with comparisons. You can use whichever adjectives you like.

(Naredite tri stavke s primerjavo, pridevnike si lahko izberete sami)

And here are some exercises you can do.

https://interaktivne-vaje.si/anglescina/grammar_6_9r/adjectives.html

Do at least two exercises for comparatives and two for superlatives. You can check your answer on the page.

Naredite vsaj dve vaji pri primernikih in dve pri presežnikih. Rešitve lahko preverite na strani poleg nalog.

Next to some exercises you also have the explanation. If you get stuck, you can read this for help.

Poleg nekaterih vaj so tudi razlage, ki jih lahko preberete, če se vam kje "zalomi".

Have a productive day 😊
